

microfiber

Made using a high-capacity and shed-resistant European fabric, Wooster microfiber rollers are the perfect choice for painters looking for a high-production microfiber cover. Although they are designed for use with all paints, stains, and enamels, these rollers excel in lower sheen (flat, eggshell) applications. Wooster microfiber rollers also have reduced spatter when compared to like fabrics. These roller covers are available in 9-, 14-, and 18-inch sizes as well as 4½- and 6½-inch Jumbo-Koter® minirollers.

- High-capacity & shed-resistant microfiber fabric for use in all paints, stains & enamels
- Achieves smooth, professional results with increased production
- Green, double-thick polypropylene core resists water, solvents & cracking
- Matching Jumbo-Koter minirollers available (in 3/8" nap) for achieving seamless results
